

AMRITESH

WEB DEVELOPER

PROFILE

Hi there, I'm Amritesh, a programmer interested in problem solving and developing new software that will add value to the community. As a software developer, I aim to build solutions that can make human life easier in any way possible. I am always ready to learn modern technologies and implement them to current solutions to make them more efficient and robust. I completed my degree in Computer Science at BhimRao Ambedkar Bihar University, and I have always been interested in computer and would love to pursue it as a career. My skills include great expertise with MS Excel, and MS Word and I even dabbled a little in coding using PHP. I am skilled in Java, Javascript, and Python. Other than that, my strengths are that I adapt quickly to new environments and absorb new information quickly.
